SUBJECT INDEX

A

Absenteeism: *see also* Sick leave
  employer burden of costs of, 5
  estimates by WHO Health and Work Performance Questionnaire, 156
  musculoskeletal-related, workplace intervention for, CME article, 499
  sickness, organization climate and, 175
Adolescents, nonfatal injuries, retail/service trades, 317
Agent Orange, food as source of exposure to, Vietnam, 781
Agricultural workers: *see also* Farmers/Farm workers
  children of, pesticide residues exposure, 42
  higher birth weight in children of, CME article, 34
  noise exposure and hearing loss in, 1281
Air pollution, risk assessment estimation of lung cancer risks, 715
Air quality, workplace health threats and job turnover rates, women, CME article, 683
Airway symptoms, immunoglobulin E levels and, in hairdressers, 1201
Alcoholism, employer burden of costs of, 5
Allergies
  impact of, in heavy manufacturing environment, 941
  lung function and, in bakery workers, 648
  management, promotion of, in heavy manufacturing environment, health and productivity outcomes, 956
American College of Occupational and Environmental Medicine (ACOEM)
  abstracts from AOHC session 2301, 771
  depression, workplace screening program for, 346
  evidence-based statement
    adverse effects associated with molds in indoor environment, 470
    noise-induced hearing loss, 579
  opinion statement, medical review officer qualifications in drug testing, 102
Ammonia, hazardous releases of, public health consequences and risk factors for evacuation and injury, 197
Angina pectoris, employer burden of costs of, 5
Angiosarcoma, of brain/liver cancer, vinyl chloride exposure and, 538
Anthrax, immunization for, adverse events after, in Army, 222
Antivibration gloves, hand-arm vibration syndrome incidence and, 1312
Anxiety, occupational differences in levels of, 628
Aromatic hydrocarbons, polycyclic
  immunological findings in coke-oven workers exposed to, CME article, 1034
  particulate matter and, in diesel exhaust, CME article, 984
Arsenic methylation, skin cancer risk and, in Taiwan, CME article, 241
Arthritis, prevalence of, employer costs and, CME article, 369
Asbestos
  consumption data, pleural mesothelioma induction period estimation and, 1107
  workers, telephone-based smoking cessation intervention program, 567
Asbestosis
  peritoneal mesothelioma and, 451
  pleural mesothelioma, time trends and risk factors for, 456
Asthma
  cleaning products and, 556
  methacholine challenge tests, dose range for, occupational studies, 841
  work-related, epidemiology of, CME article, 360
Audiometry, temporary threshold shift, immediate retest in (letter), 1211

B

Back injury, risks of, medical fitness program implementation for truck drivers and, 185
Back pain: *see under* Pain
Bakery workers, allergies and lung function among, 648
Beta-naphthylamine, exposure to, bladder cancer screening and, 289
Bioterrorism/Biological warfare
  vaccination records and, Gulf War veterans (letter), 219
  vaccinia vaccine to health care workers (letter), 344
Bipolar disorder, employer burden of costs of, 5
Birth weight
  in children of agricultural workers, CME article, 34
  genetic polymorphism, tobacco smoke and, CME article, 492
Bladder cancer, screening, beta-naphthylamine exposure and, 289
Blood exposure, occupational, risks in health care workers, 283
Blood pressure, noise exposure effects on, 1289
Book reviews, 338, 662, 908, 1128, 1207
Brain cancer
  angiosarcoma of, vinyl chloride exposure and, 538
  vinyl chloride exposure and, 533
Brainstem function, anomalies in, mercury-exposed children of gold miners, 87
Breast milk, DDT and metabolites in, 410
Bricklayers, peritoneal mesothelioma, time trend and risk factors, 451

C

Cancer: *see also* specific type or site
  bladder, beta-naphthylamine exposure and, 289
  farm animal exposure and risks of, 857

gastrointestinal, occupational exposure and, 305
incidence of, union carpenters, 1059
laryngeal, risks, chemical exposure and, in Turkey, 1100
oral, solvent exposure in sugarcane farming and, 869
prostate
incidence in triazine manufacturing plant (letter), 343
organochlorines exposure and, 692
risks in California farm workers, CME article, 249
skin, arsenic methylation and, in Taiwan, CME article, 241
titanium dioxide workers and, 400
Capacitor workers, polychlorinated biphenyls exposure, mortality rate, males *vs.* females, 270
Carbon black production
exposure assessment, 131
exposure, respiratory function and symptoms effects, 144
Carbon disulfide, workers, triglyceride and high density lipoprotein levels and, Taiwan, 73
Carcinogens, glioma, relation to occupation history and, 639
Cardiovascular disease, work organization and, commentary, 61
Carpal tunnel syndrome, genetic testing of railroad workers with, assessment of basis for, CME article, 592
Carpenters
residential
costs and injury patterns in, 875
fall-related injuries, 881
union, cancer incidence, 1059
Case management, work-related upper extremity disorders, patient satisfaction impact on health and work status, CME article, 803
Cement dust, exposure, respiratory symptoms and ventilatory function, 1008
Ceramic, refractory, exposure to, mortality rates, 440
Chemical exposure
laryngeal cancer risks, in Turkey, 1100
as risk factor for hearing loss, CME article, 676
Chevron USA v. Mario Echazabal, brief submitted to Supreme Court (letter), 667
Children
higher birth weight in children of agricultural workers, CME article, 34
mercury-exposed, brainstem function anomalies and, children of gold miners, 87
Cleaning products, asthma and, 556
Coke-oven workers, polycyclic aromatic hydrocarbon exposure, immunological findings in, CME article, 1034
Colon cancer
occupational exposure and, 305
workplace screening program, fecal occult blood test and colonoscopy use in, 891
Colonoscopy, fecal occult blood test and, in workplace screening program for colon cancer, 891
Comorbidity, chronic physical disorders and mental disorders and, national comorbidity study, CME article, 1257
Conflict, work-family, antecedents and consequences of, CME article, 479
Construction, wood framing, residential, injuries and illness, 1993–1999, 1171
Contaminant exposure, after World Trade Center collapse, office workers (letter), 465
Continuing Medical Education
antecedents and consequences of work–family conflict, prospective study, 479
arsenic methylation and skin cancer risk in Taiwan, 241
arthritis and joint disorders prevalence, employer costs and, 369
bone and blood lead levels relation to psychiatric symptoms, 1144
case management for work-related upper extremity disorders, patient satisfaction impact on health and work status, 803
chemical exposure as a risk factor for hearing loss, 676
contract for Health and Wellness program impact, 109
dioxins/furans exposure and incinerator workers' hepatic function and blood levels, 601
ELISA measurement of Stachylysin in serum, *Stachybotrys chartarum* exposure and, 582
employee health risk factors and corporate pharmaceutical expenditures, 793
employer satisfaction with workers' compensation health care, 234
exposures, stessors, and life events among Gulf War registry veterans, 1247
genetic polymorphism, tobacco smoke and birth weight, 492
higher birth weight, in children of agricultural workers, 34
human paraoxonase gene polymorphism and chronic symptoms in pesticide exposure, 118
immunological findings in coke-oven workers exposed to polycyclic aromatic hydrocarbons, 1034
influence of occupational exposure to organic solvent mixtures on contrast sensitivity in printers, 25
job insecurity as risk factor for common infections and health complaints, 123
lost productive work time costs from health condition in the U.S., 1234
lung, eye, skin lesions after wartime exposure to mustard agent, 1136
medial epicondylitis in occupational settings, prevalence, incidence and risk factors, 993
mental disorders effects on commonly occurring physical disorders, national comorbidity study, 1257
mortality among hourly motor vehicle manufacturing workers, 813
mutagenic polycyclic aromatic hydrocarbons and particulate matter in diesel exhaust and, 984
ototoxic effects of occupational exposure to styrene and co-exposure to styrene and noise, 15
paraoxonase in Persian Gulf War veterans, 668
perchlorethylene in alveolar air, blood, and urine, low-level exposure and, 1152
prostate cancer risk in California farm workers, 249
scientific basis for genetic testing of railroad workers with carpal tunnel syndrome, 592
shift work and hypertension onset relationship, male Japanese workers, 1002
unexplained symptoms after terrorism and war, 1040
vinyl chloride monomer interaction with hepatitis B, liver cancer and, 379
wellness score from health risk appraisal and medical claims costs association, 1049
workplace intervention for musculoskeletal-related absenteeism, 499
workplace threats to health and job turnover, women, 683
work-related reactive airways dysfunction syndrome, 360
Contract for Health and Wellness program, impact of, CME article, 109
Costs
arthritis and joint disorders prevalence and, CME article, 369
Contract for Health and Wellness program impact on, CME article, 109
employer burden of, physical/mental health conditions, 5
employer concern over, employee dissatisfaction and, editorial, 916
health promotion program participation and, 1196
health risks appraisal and medical claims costs association, CME article, 1049
pharmaceuticals
corporate expenditures, employee health risk factors and, CME article, 793
workplace productivity and, literature review, 610
residential carpenters, injury patterns and, 875
workers' compensation management system, cost control effects, 508

World Health Organization Health and Work Performance Questionnaire, workplace sickness-related costs estimation and, 156
Cough, secondhand exposure to tobacco smoke in workplace and, 623
Cytophaga endotoxin, lung disease and, in nylon plant, 385

D

DDT, in breast milk, 410
Demographics
workplace productivity, self-report and adverse event measures of, 973
work-related medial epicondylitis, CME article, 993
Depression
employer burden of costs of, 5
occupational differences in levels of, 628
pesticide poisoning and, 1079
screening program for, ACOEM statement, 346
Diabetes mellitus, employer burden of costs of, 5
Diesel exhaust, polycyclic aromatic hydrocarbons and particulate matter in, CME article, 984
Dioxin exposure
food as source of, Vietnam, 781
hepatic function and blood lipids and, incinerator workers, CME article, 601
Disability
Contract for Health and Wellness program impact on, CME article, 109
costs of, employer burden, 5
determination of, fibromyalgia and, editorial, 1030
prolonged, low back pain-related, predictors of, 763
workplace accommodations for employees with, 517
Drivers, commercial, medical evaluation of (letter), 911
Drug testing: *see* Substance abuse screening
Drywall installation, residential, fall-related injuries, 881

E

Editorials
fibromyalgia and the conundrum of disability determination, 1030
mortality in the motor vehicle and motor parts industry, 789
occupational medicine and its moral discontents, 1226
preparedness: where is occupational and environmental health, 1133
a wake-up call for corporate America, 916
Education: *see* Continuing Medical Education
Electromagnetic fields, exposure, suicide and, 96
Enzyme-linked immunosorbent assay, stachylysin measurement in serum, *Stachybotrys chartarum* exposure quantification and, CME article, 582
Epidemiology
cancer incidence, union carpenters, 1059
commuter and air taxi pilots, mortality risks, 1297
glioma incidence, relation to occupation history and, 639
infectious mononucleosis, Health-Related Productivity Questionnaire Diary validation, 899
motor vehicle/motor parts industry and, mortality rates, editorial, 789
noise-induced hearing loss, ACOEM statement, 579
nonfatal injuries, retail/service trades, 317
occupational blood exposure risks, health care workers, 283
perfluorooctanoate/perfluorooctanesulfante concentrations, 260
peritoneal mesothelioma, time trends and risk factors for, 451
pleural mesothelioma
induction period estimation, asbestos consumption data, 1107
time trends and risk factors for, 456
refractory ceramic fiber exposure, mortality rates, 440
wood framing in residential construction, injuries and illness in, 1993–1999, 1171
work-related medial epicondylitis, CME article, 993
work-related reactive airways dysfunction syndrome, CME article, 360
Ergonomics, hand-arm vibration syndrome incidence and, 1312
Ethical/moral issues, occupational medicine and, editorial, 1226
Ethical/moral issues, workers as research subjects (letter), 3
Etiology, pustulosis palmaris et plantaris, mercury and (letter), 468
Evacuation, hazardous ammonia release and, 197
Exposure
estimates of, carbon black production, 131
in Gulf War veterans, CME article, 1247
risk factors, traumatic hand injury and, 832
Eye lesions, after wartime exposure to mustard agent, CME article, 1136

F

Fall injury
residential carpentry/drywall installation and, 881
risks and elevation reporting, construction firm size effects on, 1074
Family, work conflicts with, antecedents and consequences of, CME article, 479
Farm animals, exposure, Hodgkin's disease, multiple myeloma, soft tissue sarcoma and, 857
Farmers/Farm workers: *see also* Agricultural workers
noise exposure and hearing loss in, 1281
organophosphate pesticide exposure, nerve/neuromuscular function after (letter), 1
pesticide exposure, children of agricultural workers, 42
prostate cancer risks in California farm workers, CME article, 249
shade tobacco, green tobacco sickness and, 656
Farming, surgarcane, solvent exposure in, oral cancer and, 869
Fatiguing syndrome, in Gulf War veterans, factor analysis, 1268
Fecal occult blood test, colonoscopy and, in workplace screening program for colon cancer, 891

Fibromyalgia, disability determination and, editorial, 1030
Firefighter masks, monocular and binocular peripheral vision effects, 428
Fitness program, implementation of, for truck drivers, 185
Flight attendants, female, job stress and, 703
Food, dioxin exposure and, Vietnam, 781
Fuel, jet, immune cell effects, fuel system maintenance workers, 79
Furans, exposure, hepatic function and blood lipids and, incinerator workers, CME article, 601

G

Gastrointestinal cancer, occupational exposure and, 305
Gender
early retirement and social support and, 433
glioma incidence, relation to occupation history and, 639
mortality in motor vehicle manufacturing workers, CME article, 813
polychlorinated biphenyls exposure, in capacitor workers, males *vs.* females, 270
skin cancer risks, arsenic methylation and, in Taiwan, CME article, 241
workplace health threats and job turnover rates, CME article, 683
Genetic studies, genetic polymorphism, birth weight, and tobacco smoke, CME article, 492
Genetic testing, carpal tunnel syndrome, assessment of basis for, railroad workers, CME article, 592
Glioma, relation to occupation history and, 639
Gold miners, mercury-exposed children of, brainstem function anomalies and, 87
Green tobacco sickness, tobacco farm workers and, 656
Gulf War veterans
exposures, stessors, and life events

among, CME article, 1247
fatiguing syndrome, factor analysis, 1268
paraoxonase levels in, CME article, 668
vaccination records and (letter), 219

H

Hand
laceration injury, job design in line-paced assembly and, 848
traumatic injury to, temporal factors adn exposure prevalence and, 832
Hand washing, pesticide exposure and, children of agricultural workers, 42
Hazardous substance, release of, injury severity and, manufacturing industry, 734
Health
employee, tool for measurement of, development and reliability analysis, 743
safety and, work organization effects, commentary, 61
Health behavior, Contract for Health and Wellness program impact on, CME article, 109
Health care benefits, health-related productivity and, measurement of, 349
Health care delivery, workers' compensation and, employer satisfaction with, CME article, 234
Health care personnel, anthrax immunization, adverse events after, 222
Health care workers
nonclinical, terrorism preparedness training, 333
occupational blood exposure risks, 283
vaccinia vaccine (letter), 344
Health conditions, lost productive work time costs from, in the U.S., CME article, 1234
Health effects
anthrax immunization, adverse events after, 222
job insecurity, CME article, 123
mold in indoor environments, adverse effects associated with, ACOEM statement, 470
workplace productivity measurement tool validity analysis, 1183
workplace-related, job turnover and, women, CME article, 683
Health promotion
program, participation in, medical costs and, 1196
worksite program for, risk status transitions among employees in, 393
Health risks
back injury, medical fitness program implementation for truck drivers, 185
employees, factors for, corporate pharmaceutical expenditures and, CME article, 793
Health-Related Productivity Questionnaire Diary, validation of, patients with infectious mononucleosis, 899
Hearing conservation, workplace programs for, threshold shift criteria, 295
Hearing function, styrene and noise exposure and, CME article, 15
Hearing loss
chemical exposure as a risk factor for,' CME article, 676
noise exposure and, farmers/farm workers, 1281
noise-induced
ACOEM statement, 579
ACOEM statement (letter), 1029
recording, OSHA final rule impact, 1274
temporary threshold shift audiometry and, immediate retest in (letter), 1211
Hepatitis B, vinyl chloride monomer interaction with, liver cancer and, CME article, 379
Hepatitis E, risks of, sewage workers in India, 1167
Hepatocellular carcinoma, vinyl chloride monomer interaction with hepatitis B and, CME article, 379
Hodgkin's disease, farm animal exposure and, 857
Hordaland Health Study, health-related quality of life and, 324
Human capital management, employer estimation of, 1213
Hydrocarbons, exposure, suicide and, 96
Hypertension
employer burden of costs of, 5
shift work and, male Japanese workers, CME article, 1002
Hypolipidemia, perfluorooctanoate/perfluorooctanesulfante and, epidemiologic assessment, 260
Hypothyroidism, primary congenital, thyroid function and, neonates after perchlorate exposure, 1116

I

Immune system, jet fuel effects, fuel system maintenance workers, 79
Immunity, polycyclic aromatic hydrocarbon exposure in coke-oven workers, CME article, 1034
Immunization, anthrax, adverse events after, in Army, 222
Immunoglobulin E levels, airway symptoms adn, in hairdressers, 1201
Impairments, workplace accommodations for employees with, 517
Infants
perchlorate exposure and thyroid function, Flagstaff *vs.* Yuma (letter), 1131
primary congenital hypothyroidism and thyroid function, after perchlorate exposure, 1116
Infections, common, job insecurity effects on, CME article, 123
Injury, work-related
estimates by WHO Health and Work Performance Questionnaire, 156
fall injury, risks and elevation reporting, construction firm size effects on, 1074
falls, residential carpentry/drywall installation and, 881
hand laceration, job design in line-paced assembly, 848
hazardous ammonia releases, public health consequences, 197
nonfatal, retail trades and service industries, 317
residential carpenters, 875
severity of, hazardous substance releases and, manufacturing industry, 734
wood framing in residential construction, injuries and illness, 1171
Irritants, airborne, Alarie test and (letter), 467

J

Job dissatisfaction, female flight attendants, 703
Job insecurity, common infections/health complaints and, CME article, 123
Job performance, estimates by WHO Health and Work Performance Questionnaire, 156
Job satisfaction, employer concern over health care costs and, editorial, 916
Job turnover, workplace health threats and, women, CME article, 683
Joint disorders, prevalence of, employer costs and, CME article, 369

L

Laceration, hand, job design in line-paced assembly and, 848
Laryngeal cancer, risks, chemical exposure and, 1100
Lead toxicity
low levels, lead-related symptoms and, 546
psychiatric symptoms and, CME article, 1144
radiator repair workers and, 725
Life events, in Gulf War veterans, CME article, 1247
Line-paced assembly workers, hand laceration, job design and, 848
Lipoprotein, high-density, levels, in carbon disulfide workers, 73
Liver cancer
hepatitis B virus interaction with vinyl chloride monomer, CME article, 379
vinyl chloride exposure and, 533
Liver function, dioxins/furans exposure and, incinerator workers, CME article, 601
Lung, carbon black exposure effects, 144
Lung cancer
refractory ceramic fiber exposure and, 440
risks, assessment of, air pollution and, 715
smoking-related, asbestos workers, telephone-based cessation intervention program, 567
Lung disease, Cytophaga endotoxin exposure and, 385

Lung function, in welding workers, 1068
Lung lesions, after wartime exposure to mustard agent, CME article, 1136

M

Managed care, employer satisfaction with workers' compensation health care delivery and, CME article, 234
Manufacturing industry
  hazardous substances release, injury severity and, 734
  heavy
    allergy management promotion, health and productivity outcomes, 956
    impact of allergies and medications in, 941
    workplace productivity, validation of self-reported measures of, 926
Medial epicondylitis, work-related, prevalence, incidence and risk factors, CME article, 993
Medical conditions, chronic, work performance and, evaluation of, 1303
Medical review officer, qualifications in drug testing, ACOEM opinion statement, 102
Mental distress/disorders
  chronic physical disorders and, national comorbidity study, CME article, 1257
  employer burden of costs of, 5
  mortality from, pesticide exposure and, 564
  short- *vs.* long-term unemployment and, 1159
Mercury
  exposure, brainstem function anomalies and, children of gold miners, 87
  pustulosis palmaris et plantaris and (letter), 468
Mesothelioma
  peritoneal, time trends and risk factors for, 451
  pleural
    induction period estimation, asbestos consumption data and, 1107
    time trends and risk factors for, 456
Methacholine challenge tests, dose range for, occupational studies, 841
Mold
  indoor environments, adverse effects associated with, ACOEM statement, 470
  Stachybotrys chartarum exposure, ELISA measurement of Stachylysin in serum for quantification of, CME article, 582
Mononucleosis, infectious, health-related productivity diary, validation of, 899
Mortality
  commuter and air taxi pilots and, 1297
  mental disorders and, pesticide exposure effects, 564
  motor vehicle manufacturing workers, CME article, 813
  motor vehicle/motor parts industry and, editorial, 789
  polychlorinated biphenyls exposure, in capacitor workers, males *vs.* females, 270
  refractory ceramic fiber exposure, 440
  titanium dioxide workers and, 400
Motor vehicle manufacturing
  mortality among hourly workers in, CME article, 813
  noise exposure effects on blood pressure and, 1289
Motor vehicle/motor parts industry, mortality rates in, editorial, 789
Musculoskeletal disorders, work organization and, commentary, 61
Mustard agent, wartime exposure to, lung, eye, skin lesions after, CME article, 1136
Myeloma, multiple, farm animal exposure and, 857
Myocardial infarction, employer burden of costs of, 5

N

Nasal function, particulates and, 54
Nerve function, after organophosphate pesticide exposure (letter), 1
Neurobehavioral disorders, mortality and, pesticide exposure effects, 564
Neurocognitive dysfunction, malingering, after toxic exposure, Slick criteria application, 1087
Neurological symptoms, safety procedures and, in pesticide poisoning, 1079
Neuromuscular function, after organophosphate pesticide exposure (letter), 1
Neurophysiological effects, brainstem, mercury-exposure and, children of gold miners, 87
Noise exposure
  blood pressure effects, 1289
  chemical exposure and, hearing loss risks and, CME article, 676
  hearing loss and, farmers/farm workers, 1281
  hearing loss induced by, ACOEM statement, 579
  styrene and, ototoxic effects of, CME article, 15
Nurses, occupational blood exposure risks, 283
Nylon plant, cytophaga endotoxin and lung disease in, 385

O

Occupation, health-related quality of life and, 324
Occupational and environmental health, terrorism preparedness and, editorial, 1133
Occupational health and safety, research, in the Army (letter), 220
Occupational medicine, moral discontents and, editorial, 1226
Occupational Safety and Health Act, low blood lead levels, lead-related symptoms and, 546
Occupational Safety and Health Administration, work-related hearing loss, recordable, final rule impact, 1274
Office workers, contaminant exposure after World Trade Center collapse (letter), 465
Organization, of work, safety and health effects and, commentary, 61
Organizational climate, sickness absence and work-related symptoms and, 175
Organochlorines
  exposure to, prostate cancer risks and, 692
  thyroid effects after long-term exposure, 526
Organophosphates
  exposure to, nerve and neuromuscular function and (letter), 1
  paraoxonase gene polymorphism and, symptoms after exposure to, CME article, 118
Ototoxic effects, styrene and noise exposure and, CME article, 15

P

Pain, low back
  employer burden of costs of, 5
  prolonged work disability predictors, 763
Paraoxonase, in Persian Gulf War veterans, CME article, 668
Paraoxonase gene, polymorphism, chronic symptoms and, after pesticide exposure, CME article, 118
Particulate matter, polycyclic aromatic hydrocarbons and, in diesel exhaust, CME article, 984
Particulates, low-toxicity, nasal function and, 54
Patient satisfaction, case management for work-related upper extremity disorders, impact on health and work status, CME article, 803
